## Summary

Accomplished project management office (PMO) leader with extensive background in PMO development, implementation, coupled with a passion for addressing climate change, energy efficiency, and decarbonization. Successful in defining project portfolio, setting governance standards, resource allocating, and mentoring top-notch implementation teams in both large and small companies.

Proven track record in building relationships with diverse stakeholders as a respected leader of systemwide initiatives and formalizing strategic plans that increase revenue, reduce costs, and streamline operations. Skilled at conveying complex information across multiple communication channels that clarify priorities and technical information into clear terms for professional and public audiences.

---

## Expertise

### Project and Program Leadership

Executive Governance Boards • Stakeholder Relationships • Budget Management • Resource Management • Team Building • Mentoring

### Partnership & Collaboration

Expectation Management • Presentations and Reporting • Contractor On-Boarding • Vendor Negotiations

### Decarbonization

Outspoken member in various non-profit organizations who look to redefine the energy landscape with green initiatives.

---

## Professional Experience

### Member / Somerset County Energy Council – Nov '21 - Current

Selected to join a council whose mission is to advise the County Commissioners and to advocate for energy efficiency and conservation in promoting public understanding of opportunities and choices at hand regarding energy issues. Chair of the Renewable Energy & Technology Committee and Member to the Education & Awareness and Public Policy Committees.

### Creator & Author / DecarbToday.com – Nov 2021 - Current

Created DecarbToday.com to educate readers on the vast issues facing the goal of decarbonizing our energy mix.

### Global IT PMO / Church & Dwight Co. – 2016 - 2019

Recruited to redefine the project delivery lifecycle by shaping standards, processes, and procedures to align with business strategies and tactical missions. Led team of 17 direct reports. Defined the strategic direction of technology services for nearly 5K employees and utilized agile methods to execute continuous improvement projects involving tools methodologies, and practices.

## **Director of the PMO / Bodek & Rhodes** – 2013 - 2016

Developed the family-owned company's first project management office. Defined standards, processes, and procedures required to support strategic and tactical goals. Led a team focused on streamlining infrastructure, delivering efficiencies, and supporting technological and operational needs and expansions. Developed and executed a strategic project planning framework that encompassed accountability, scalability, and consistent service delivery. Created and led company's Executive Project Review Board in project review, approval, and prioritization of conflicting project goals and resources.

## **Director of Project Delivery / eBay** – 2007 - 2013

Established a project management office for a newly created business unit of managed services to an e-commerce division. Envisioned and defined standards, processes, and procedures to facilitate a scalable solution for both internal and external customers tapping into new e-commerce technologies. Oversaw project team leads and brought cross-functional teams together to define release roadmaps, staffing requirements, and resource allocations. Built project delivery teams from a 60+ staff. Founded project governance standards and led issue resolution, cross-functional prioritization meetings, and created portfolio-level staffing plans to support current and future deliverables and demands.

## **Director of Engagement / Ness Technologies Consulting** – 2004 – 2007

Built digital service consulting teams and agreements for product engineering companies. Defined technology roadmaps from current to future states and drove business development process by bringing business and technology teams together around common goals.

---
